

LIAM ARMSTRONG

Toronto, ON · liam@liam-armstrong.com · (647)-523-0040

EDUCATION

University of British Columbia
B.A. Computer Science

Vancouver, BC
Sept 2017 - Present

EXPERIENCE

The Ubysey

Web Developer and Project Coordinator

Vancouver, BC
Sept 2018 | Present

- Maintaining, updating and documenting the Ubysey's open source front end website and custom back end content management system
- Mentoring and managing a team of volunteer web developers, guiding bug fixes and small feature implementations

Kids Help Phone

Project Management Student Associate, Data Entry Clerk

Toronto, ON
May 2018 | Aug 2018

- Received promotion from Data Entry Clerk to Project Management Student Associate on International Consultation 2018 planning team
- Streamlined our invoicing process for conference attendees by creating tools to generate and send documents, making the procedure 85% more efficient
- Created a web scraping script that generated over 150 potential corporate sponsors

Intrst Financial

Co-Founder and Chief Technology Officer

Toronto, ON
Oct 2016 | Jul 2017

- Designed, configured and implemented a complete web platform using Bootstrap and AngularJS
- Developed work-flow charts and diagrams to ensure production team compliance with deadlines, completing minimum viable product within 2 months of project start
- Managed team of four direct reports responsible for on-going product optimization, maintenance and expansion

Snowhawks Ski and Snowboard School

Ski Instructor

Toronto, ON
Dec 2015 | Jan 2017

- Spearheaded the development of a new lesson set focused on skier confidence
- Earned Canadian Ski Instructors Association Level One instructor certification

EXTRA-CURRICULAR ACTIVITIES

nwHacks

Logistics Coordinator

Vancouver, BC
Sept 2017 | Present

- Managed event logistics and operations, including support staff, vendor services and volunteers
- Attended MLH's HackCon VI with other senior organizers, learning about fostering a safe and inclusive tech community
- Utilized GitHub's Campus Expert program and club resources to host and present several successful workshops and other events

SKILLS

Languages: Java, Python, JavaScript (ES6), C++, HTML, CSS
Frameworks / Libraries: Django, Node.js, Bootstrap, React, Redux

PROJECTS

Two Eyes Out

Django REST API, React and Redux

2eo.liam-armstrong.com
Aug 2018 | Present

A web-app for monitoring UBC Course listings, alerting the user if a seat opens in a full class. The Django back end scrapes UBC lecture pages and sends email alerts in asynchronous execution. A React single page application is used to sign-up and manage the user's class listings.

210 Calendar

Java 8, FXML

github.com/liam-armstrong/cpsc-210-calendar
Sept 2018 | Dec 2018

A functioning, multistage calendar desktop application, featuring user interaction with an FXML GUI. Demonstrated use of object oriented design patterns and software development principals such as API interaction, data structures and robustness.
